## **PART I. TEACHING**

As an Associate Researcher, I am not expected to teach regularly, but I am passionate about teaching and have always enjoyed it. In 2015 I was appointed as a temporary lecturer in the CS department, UCSB, in addition to my research appointment. I have been involved as lecturer or organizer of CS290D graduate course on Network Science at UCSB since 2015. Prior to this, I performed various unofficial teaching duties. I regularly present guest lectures and seminars, as detailed in Part II. In Winter quarter of 2015, I co-designed and co-taught graduate course NS202 / CS290D on Network Science with Tobias Höllerer at UCSB. In Fall 2015, I designed and taught the IGERT mini-course on Visualization at UCSB. Previously, I have worked as a teaching assistant to all levels of undergraduate, Higher Diploma and Masters classes in both Computer Science and Engineering at University College Dublin, Ireland. My teaching focus included Networks, Java, Multimedia, AI, Introduction to IT, C Programming, Intro to UNIX and various other courses. I enjoy helping students, and have volunteered on various PhD and MS committees.
