#### Area of Specialization

Artificial Intelligence, Human-Computer Interaction, Social Computing. My research background is in AI, with focus on recommender systems and interactive interfaces. In my research I combine facets from data mining, machine learning, personalization systems, cognitive science, Ux design and experimentation to explore and improve our use of automated tools to deal with big data.

#### **Appointments**

| 2015-     | Associate Researcher I, Department of Computer Science, University of California, Santa Barbara. (Associate II expected in July'17) |
|-----------|---|
| 2015-18   | Lecturer (Temporary Appointment), Department of Computer Science, University of California, Santa Barbara.                          |
| 2010-2012 | Assistant Researcher II, Department of Computer Science, University of California, Santa Barbara.                                   |
| 2013-2014 | Assistant Researcher IV, Department of Computer Science, University of California, Santa Barbara.                                   |
| 2012-2013 | Assistant Researcher III, Department of Computer Science, University of California, Santa Barbara.                                  |
| 2009-2010 | Associate Research Specialist, Department of Computer Science, University of California, Santa Barbara.                             |
| 2007-2008 | Postdoctoral Researcher, Department of Electric and Computer Engineering, University of California Santa Barbara.                   |
| 2005-2006 | Visiting Researcher, Dept. of Computer Science, University of Southern California, Los Angeles                                      |

#### **Professional Organizations**

- Association for Computing Machinery (ACM)
- Institute of Electrical and Electronics Engineers (IEEE)
- Artificial Intelligence Association of Ireland (AIAI)

#### **Awards**

- ACM Inaugural Award for Most-Influential-Paper in Intelligent User Interfaces (IUI) conference series (24 years running) for "Trust in Recommender Systems" (http://dl.acm.org/event.cfm?id=RE306). Award and invited talk given at IUI in Cyprus, March 2017.
- Association for Computing Machinery, Recognition of Service Award, April 2016.
- Best Paper Award at IEEE International Conference on Social Computing (SocialCom'13). Washington DC, September 2013: "Understanding Information Credibility on Twitter".
- Best Paper Award at IEEE International Conference on Cognitive Methods in Situational Awareness and Decision Support (CogSIMA'14), San Antonio, Texas. March 2014: "Decision-making in Abstract Trust Games: A User Interface Perspective".
- Irish National Dissertation Award Nominee, 2008. One of 6 national finalists across all science and engineering fields.
- Best paper award nominations: ACM IUI 2005, AAAI FLAIRS 2006, IEEE SocialCom 2011.

#### PART I. TEACHING

As an Associate Researcher, I am not expected to teach regularly, but I am passionate about teaching and have always enjoyed it. In 2015 I was appointed as a temporary lecturer in the CS department, UCSB, in addition to my research appointment. 2017 would be my third year teaching the CS290D graduate course on Network Science at UCSB. Prior to this, I performed various unofficial teaching duties. I regularly present guest lectures and seminars, as detailed in Part II. In Winter quarter of 2015, I co-designed and co-taught graduate course NS202 / CS290D on Network Science with Tobias Höllerer at UCSB. In Fall 2015, I designed and taught the IGERT mini-course on Visualization at UCSB. Previously, I have worked as a teaching assistant to all levels of undergraduate, Higher Diploma and Masters classes in both Computer Science and Engineering at University College Dublin, Ireland. My teaching focus included Networks, Java, Multimedia, AI, Introduction to IT, C Programming, Intro to UNIX and various other courses. Out of a general interest in helping students, I have also volunteered on various PhD and MS committees.

# PART II. PROFESSIONAL ACTIVITIES

<u>Lectures Presented</u> (2010 onwards, prior information available upon request)

| Date       | Title   | Meeting/Place  |
|------------|---|--|
| 03/09/2017 | Awareness interfaces for recommender systems.     | Keynote talk at the IUI AWARE workshop, Limmasol, Cyprus.  |
| 12/18/2016 | Trust in Recommender Systems                      | Invited talk at IUI'17 (Highest impact paper talk and discussion panel). With Barry Smyth  |
| 12/18/2016 | The Explainable Future of Artificial Intelligence | Invited Talk scheduled for December 18 <sup>th</sup> at the School of Informatics. Kyoto University, Japan. (Host: Prof. Katsumi Tanaka and Prof. Shinsuke Nakajima) |

| 12/14/2016 | Recommendation and Explanation: A History and Outlook.   | Invited Talk scheduled for<br>December 14 <sup>th</sup> at the Computer<br>Science Dept. Aalto University,<br>Finland. (Host: Prof. Samuel Kaski)      |
|------------|--|--|
| 12/8/2016  | Overview of research in UCSB's FourEyes Lab. (With M.Turk)                                       | Short Talk at TAUCHI Research<br>lab, University of Tampere,<br>Finland. (Host: Prof. Roope<br>Raisamo)  |
| 11/29/2016 | Mid-air annotations using the HoloLens Device  | Demo at the US Navy I-ITSEC conference. Orlando, Florida. (with T. Höllerer)   |
| 07/07/2016 | An Analysis of Dropout Rates in Two MOOC Courses.  | Talk given at the ASONAM conference in San Francisco, CA.  |
| 09/13/2016 | A Cross Cultural Analysis of Cosmetic Product Reviews.   | Talk given at IBM, Cambridge, MA (IntRS'16 Workshop)   |
| 17/06/2016 | Transitional Research in Interactive Data<br>Analysis (with T. Höllerer and J. Schaffer)         | Talk given at the new ARL WEST facility in Santa Monica, CA. (host: Tien Pham, ARL)  |
| 11/04/2015 | Interactive Recommender Systems. (with B. Kang)  | Talk given at Spatial Center, brown bag forum. UCSB Dept. of Geography.  |
| 05/29/2015 | Introduction to social computing and data interaction research at FourEyes lab, UCSB.            | Talk and Demos given at UC Santa<br>Barbara Media Arts and<br>Technology Program End of Year<br>Show 2015.   |
| 08/27/2015 | HCI and Experimentation: The SassY project   | InTouch Health Inc. invited talk,<br>hosted by Jon Southard. Talk<br>primarily given by Nava Tintarev  |
| 08/26/2015 | Explanation and Control in Recommender Systems   | Yahoo! Labs invited seminar (with<br>Nava Tintarev), Sunnyvale, CA.  |
| 05/23/2015 | Network-based Decision Making research at UCSB   | Talk given at US Army Research<br>Network Science program<br>(NS-CTA) annual meeting,<br>Delaware VA, jointly with Sibel<br>Adali and Jennifer Mangels |
| 04/29/2015 | General Chair's Introduction to ACM IUI 2016<br>Conference                                       | Talk at ACM IUI 2015 conference,<br>Atlanta Georgia. With Jeff Nichols   |
| 09/13/2014 | Interaction and Decision Making for Recommender Systems: Introduction and Wrap-up presentations. | IntRS workshop at ACM<br>Recommender Systems<br>Conference, 2014   |

| 09/13/2014 | Dynamics of Human Trust in Recommender Systems.  | ACM Recommender Systems<br>Conference, 2014. Poster<br>presentation and video interview.<br>(with Jason Harman)  |
|------------|--|--|
| 06/13/2014 | Information based Decision Making and Trust in Networks                                | Talk given at US Army Research<br>Network Science program<br>(NS-CTA) annual meeting, jointly<br>with Sibel Adali and Jennifer<br>Mangels                            |
| 06/12/2014 | Scalable Recommendation of Credible Information  | Talk given at US Army Research<br>Network Science program<br>(NS-CTA) annual meeting.  |
| 05/27/2014 | Competence Modeling in Twitter: Mapping Theory to Practice                             | Talk given at the International<br>Conference on Social Computing,<br>Stanford University, California.   |
| 2/7/2014   | Mining, Modeling and Visualizing Information from the Social Web                       | Talk given at the University of<br>California Santa Barbara NSF<br>IGERT program orientation<br>meeting. Hosted by Tim Robinson                                      |
| 2/5/2014   | Introduction to Recommender Systems  | and Ambuj Singh UC Santa Barbara Technology and Management Program, Invited Lecture.   |
| 05/22/2015 | Introduction to Deep Learning  | Hosted by Jill Feldman FourEyes Lab Research seminar talk given at MAT department, UCSB.   |
| 12/06/2013 | Trust, Recommendations and the User Interface  | UC Santa Barbara Dept. of Electric<br>and Computer Engineering, Visual<br>Cafe Seminar Series Talk. Hosted<br>by Pradeep Sen.  |
| 07/11/2013 | A Model-based Evaluation of Trust and Situation Awareness in the Diner's Dilemma Game. | 22nd Conference on Behavior<br>Representation in Modeling and<br>Simulation. (BRiMS). Carlton<br>University, Ottowa, Canada. July<br>2013. Hosted by Daniel Cassenti |
| 05/23/2013 | LinkedVis: A Visual Interactive Career<br>Recommender System                           | Demonstration given at UC Santa<br>Barbara's Media Arts and<br>Technology "End of Year Show"   |
| 05/15/2013 | Experiences with The Peer Review Process   | PhD Student Seminar at UCSB<br>Media Arts and Technology.<br>Hosted by Marko Peljhan   |
| 05/23/2013 | Zone integration solutions with SIRAS.   | Talk given at Ventura School<br>District, VCOE SELPA.  |

| 04/20  | /2013 | SIRAS: Intelligent Web-based Form Handling for Individual Education Plans (IEPs)       | Talk given at Marin County School<br>District Review Meeting   |
|--------|-------|--|--|
| 04/04  | /2012 | Analysis of Information Credibility in Networks  | Talk given at NS-CTA annual technical meeting. Newark, DE, USA   |

|--------------------------|---|--|
| 08/6/2009-<br>ongoing    | Co-Founder and CTO                                  | Siras Systems Inc. (www.sirassystems.com). Designed, implemented and deployed a novel software platform to devise personalized educational plans for special needs students. The system is in daily use by thousands of special education administrators, teachers, and students across multiple school districts in the California area (currently actively serving 7 districts including Kern, Ventura, Monterey, Bakersfield and Riverside). Software focus is on state reporting and intelligent generation of personalized education plans (IEPs) for special ed. students at all K12 levels. Co-founder with Brian Marcontell and Steve Ormbrek. |
| 2010-<br>ongoing         | Lab Co-Director                                     | I co-direct research in UCSB's FourEyes lab with Professors Turk and Höllerer (CS Dept.). This role involves coordinating lab meetings ranging between 10-50 students from all levels, managing equipment, hosting visitors and speakers from academia and industry, coordinating annual open days and visits from community groups such as local high school students, and running various discussion groups and seminars within the lab.   |
| 02/1/2011-<br>ongoing    | Graph visualization software release maintenance    | Ongoing maintenance and updates of WiGis open source graph visualization software framework. Available at https://code.google.com/p/wigis/   |
| 08/1/2012-<br>06/30/2014 | Systems Administration and Procurement              | Managed computing infrastructure and upgrades for FourEyes lab. Duties included account procuring, configuring and maintaining rack servers and provisioning services such as, SVN, SQL and others for approximately 30 people.  |
| 08/1/2012-<br>06/30/2014 | Website Design,<br>Implementation and<br>Management | Designed, implemented and managed public website platform for FourEyes lab UCSB. Currently available at http://ilab.cs.ucsb.edu. Also managed the IUI 2016 conference website with Byungkyu Kang (Nokia Research). http://iui.acm.org/2016/  |

## PART III. RESEARCH

### Cumulative List of Publications. (Also available for download at http://cs.ucsb.edu/~jod/publications.html)

All publications were accepted through a standard review/refereeing process unless otherwise stated in category column. All conference and workshop publications were orally presented unless otherwise stated in category column.
